CALL FOR PAPERS

CONFERENCE IN BRIEF

The ***Society for Economic Science with Heterogeneous Interacting Agents (ESHIA)*** is organizing the 2026 edition of the Workshop on Economics with Heterogeneous Interacting Agents (WEHIA), joint with the Econophysics Colloquium (EC).

The joint event will be hosted by the ***Faculty of Economics "Giorgio Fuà" of the Università Politecnica delle Marche (UNIVPM)*** from the 15th to the 17th of June 2026.

The Workshop encourages pluralism in both **theoretical perspectives** and **methodological approaches** and offers a distinctive forum to present and critically discuss recent advances in the study of the **economy as a complex system**. The 2026 edition is particularly significant as it marks the **30th anniversary** of the first WEHIA, held in the very same location, highlighting three decades of sustained research on complexity, interaction, and heterogeneity in economics.
